

## Area 46 Accessibilities and Remote Communities Survey for Groups

Group Name \_\_\_\_\_ District \_\_\_\_\_

GSR's name \_\_\_\_\_

Phone number \_\_\_\_\_ Email address \_\_\_\_\_

Date \_\_\_\_\_

Does your group have any members or regular attendees who need Assistive Listening Devices (ALD) in order to hear the message at your meetings?

If so, are the group members familiar with Assistive Listening Devices (ALD) and how to find out if the facility where the meeting is held has them?

If a deaf alcoholic makes contact with your group and wishes to attend your meeting, what is the procedure they would follow to arrange for a sign language interpreter? Describe the procedure.

Would your group be willing to pass a second AA basket to donate funds to pay or assist in paying for an American Sign Language (ASL) interpreter?

Does your group have AA literature available in a form that would be accessible to AAs who are visually impaired, e.g. CDs, closed-captioned videotape, Braille or large print? If yes, describe the format.

Is your meeting accessible to AA members with mobility loss (using a cane, crutches, walker)?

Is your meeting location wheelchair accessible, including the following:

Parking area?

Building entry door?

Restrooms?

Meeting room?

Is there space in the meeting room for a wheelchair to maneuver and “park” during the meeting?

Is the access information for your meeting posted in the meeting schedule?

Does the facility have Braille signage? If so, is that posted in the meeting schedule?

Does your group have, or would it be willing to maintain a signup sheet for service work volunteers to:

Give rides to the meeting?

Provide childcare during the meeting time?

Take AA meetings to members when they are confined to home, hospital or long-term care facility?

Assist AA members who are blind?

Serve as temporary sponsors who know ASL or another language?

Other :

Please add any comments relating to how your group serves members who have any other difficulties accessing the AA program or service structure:
